

Group	Type of the plant	The incentive price C (kn/kWh)
3.a.	Cogeneration plants with installed capacity up to and including 30 kW, micro-cogeneration, and those with fuel cells	RC
3.b.	Cogeneration plants with installed capacity exceeding 30 kW and up to and including 1 MW, small size cogeneration	RC
4.a.	Cogeneration plants with installed capacity exceeding 1 MW up to and including 35 MW, medium size cogeneration	RC
4.b.	Cogeneration plants with installed capacity exceeding 35 MW, large size cogeneration	RC

For all power plants, with the incentive price of RC, for each accounting period of the incentive payments will be paid the amount of currently valid RC. RC referred to Article 5. paragraph 5 presents a valid RC at the time of signing the contract for the purchase of electricity and changes in accordance with the methodology set out in Article 3 Paragraph 2 item 16 Tariff System.

RC - reference price of electricity (Article 3, paragraph 2, item 16) - price is equal to the amount applicable tariff rates for active energy at the unique daily tariff for supply of electricity within the universal service, tariff model Blue which is the amount specified in Article 39 paragraph 2 Item 1 Methodology for determining the amount of tariff items for electricity supply within the universal service ("Official Gazette", 116/2013), according to which suppliers are obliged to buy electricity from renewable energy sources and cogeneration from HROTE.
